THE JEWELLERS FILE - DECEMBER '09

Valid to end of month while stocks last

2009 has been a testing year for many businesses with constant reminders of economic strife intermingled with interest rate hikes. Notably there has been a lack of comparative reporting that may have shown that while the Reserve Bank's Cash Rate Target increased by another 0.25% on November 4, the current RBA Cash Rate Target is 3.5% compared to 6.5% in November 2007 (info freely available on the Australian Bureau Statistics website) How that translates into loan repayment changes is somewhat mystifying as it seems the banks will do as they will regardless of how upset that may make the reserve bank (or indeed their clients). To be fair however we all must report to our own "minister of finance, or board of directors" and it seems we should be feeling the pinch a little less! To simplify, current variable home loan interest rates are around 6.24% while November 2007 rates were 8.55% (www.loansense.com.au). Over 12 months on a \$200,00.00 loan, that makes \$4620.00 of spare cash; I wonder just where I put that! I do hope you are getting a share of this 'spare cash' over the Christmas selling season.

From all of the staff at AJS, we would like to thank you for your support over the past 12 months and wish you and your family a safe and prosperous Christmas.

Regards, Ian Martin

Christmas Trading Hours at AJS Brisbane

Close - 2:00pm Thursday 24th December 2009

Re-Open - 8:00am Monday 4th January 2010

Ceramic Solder Block

Honeycombed with hundreds of tiny (1.5mm) holes that trap the heat in the area being soldered reducing heat loss. Will withstand temperatures up to 3000°C.

Dimensions: 130 x 90 x 12mm.

Ref: 26-044-000

\$10.00 + GST

= **\$11.00** including GST

80 ONLY

Osada Micromotor

This is the quietest, best engineered Micromotor we have sold. The amount of vibration is so low, it is almost impossible to feel if the handpiece is running.

The brushless (no carbon brushes to change) motor has excellent slow speed control around the 1,000 rpm range. An internal clutch allows the bur to be changed without waiting for the motor to stop.

The RPM range is from 1,000 rpm to 40,000 rpm changed by either control dial or foot pedal. The handpiece is very well balanced weighing only 175 grams.

Using this handpiece will give you very precise results as the oscillation of the bur is rated at less than 20 micron.

4 ONLY

= **\$2,062.50** including GST

\$1,875.00 + GST

Data Count JR

Ref: 47-140-000

The DATA COUNT JR quickly and accurately counts stones as small as 0.7 mm, removing the risk of human error and saving you more than 70% of the time normally devoted to counting stones. Suited to factories of all sizes, the DATA COUNT JR provides an efficient way to ensure control and is an essential tool for manufacturers and suppliers in the jewellery industry. The device employs proprietary patented technology.

Features:

- Counts all shapes of stones from 0.7 mm to 3 mm at speeds of up to 80,000 stones per hour
- Simple operation with a user-friendly interface
- Counts a pre-set number of precious stones
- Bluetooth connectivity
- Stones can be poured directly into plastic bags or a measuring cup
- The machine size is 21×21×20 cm

\$7,268.00 + GST

= \$7,994.80 including GST

Benefits:

- Significant reduction in labour cost.
- Enables reassignment of labour to more complicated tasks.
- Quickly separates larger parcels into smaller ones.
- No mechanical setting required.
- Small enough to fit any desk or worktop.
- Less handling of stones during the production process.
- Results can be transferred to PC software, Excel spreadsheets or proprietary software.
- Labels indicating the size and count can be printed using a label printer.

1 ONLY

Polistar Ultra High Shine Emulsion

NEW

\$16.95 + GST

= \$18.65 including GST

Ref: 06-036-000

Perfect for adding that “**final gloss finish**” to polished gold or silver jewellery.

Prolong the onset of tarnish.

Polistar applies an ultra fine anti-tarnish layer to help prolong the onset of tarnish on silver.

Supplied in a 50ml bottle.

50 ONLY

Primus Soldering Torch Kit

Great for hobbyists, solder using a standard LP gas bottle with this high quality setup. Designed to be used without the need for a regulator.

Included in this kit is a Hose, Connecting Valve, Handpiece, Ultra Pin Point Burner and Pin Point Burner.

Ref: 00-024-005

\$129.99 + GST

= \$142.99 including GST

25 ONLY

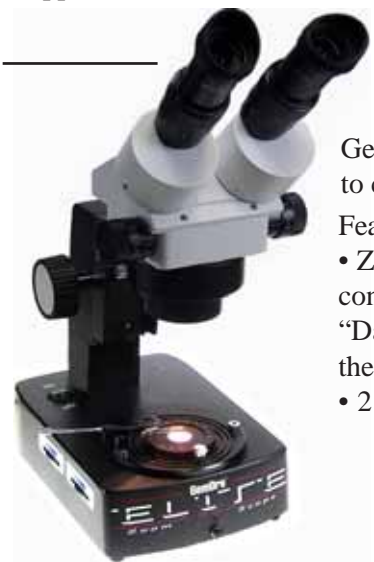

Gemoro Elite 745 Microscope

Ref: 47-135-000
